

St Michael Wood Green

Mission Action

2007 – 2012

plans

- strengthen our pastoral team / ministers
- tower restoration / internal gallery to increase seating footprint
- strong & stable finances

to happen

- outreach through development of house group/s (an exploration into *fresh expressions* – an ‘alternative mass’)
- consider ways to enhance contact with the local community
- look at the issue of a ‘locked church’ / create a place where anyone can come for prayer during the week
- scheme to increase the capacity of the church
- continuing restoration/refurbishment scheme
- ongoing stewardship drive

the biggest issues we face

- the growth of our church and plans for further growth
- leadership / staffing / pastoral team building
- possibility of new mass (different character) – timing/scheduling
- revitalisation of relationships (and support)
- creative use of church building space (crèche)
- financial implications of the above

the most exciting possibilities

- further growth : attraction based > mission / incarnation based. use more resources – time & money from maintenance > mission especially with regard to younger church
- *fresh expressions* of church: (youth council growth) + evolving worship pattern – new ways of worship / mid-week evening mass?
